

# Welcome

at school

## HIGHLIGHT

The aim of the project Welcome! Is to create an online language and culture courses for children aged 10-14 yo who fled to a new country from war. The other aim is to create a teacher's guide with useful suggestions for how to enhance inclusion of the new student at school. The main idea is to give these children a chance to build a high quality of life in a new country and support their well-being.

The reason for organizing this project was the 24th of February 2022 invasion of Russia on Ukraine that forced many families to migrate and settle in the neighbouring countries.

Six organizations from Poland, Czech republic, Greece and Ukraine who work with migrants and provide programs for well-being improvement, better integration into the foreign society or language courses, will be working on the development of project results which will be available on this platform: [www.welcomeatschool.eu](http://www.welcomeatschool.eu).

# PROJECT PROGRESS

## TRANSNATIONAL MEETING IN BRNO, CZECH REPUBLIC

The first consortium meeting of Erasmus+ project **Welcome!** financed by the European Commission was hosted in Brno, Czech republic by LS PELICAN during the 18th and 19th of January 2023.

Partners discussed the main tasks ahead for the next few months, among other things a distribution of questionnaires to students and teachers, creation of activities and online language courses in a way that would answer the childrens' needs best.

We are looking forward to finishing the first results and their dissemination among you!
